II. BACKGROUND TO THE OFFER

1. The Target Company is a public limited company incorporated in India with 75% of its equity share capital currently held by ABB Asea Brown Boveri Ltd., a company incorporated under the laws of Switzerland. ABB Asea Brown Boveri Ltd. is a wholly owned subsidiary of PAC 2. The Target Company is engaged in the power grids business. The equity shares of the Target Company were listed on March 30, 2020 on the Stock Exchanges in accordance with the scheme of arrangement (*as more particularly set out hereinafter*). In terms of the scheme of arrangement between ABB India Limited (a public company incorporated in India with its equity shares listed on the Stock Exchanges, the "**Transferor**"), the power grids business of the Transferor was demerged to the Target Company ("**Scheme**"). In consideration for the demerger, all the shareholders of the Transferor as on the record date, i.e. December 23, 2019, were allotted 1 fully paid up equity share of INR 2 each of the Target Company for every 5 fully paid up equity shares of INR 2 each held in the Transferor. ABB Asea Brown Boveri Ltd., which held 75% of the equity share capital of the Transferor on December 23, 2019, was issued and allotted equity shares constituting 75% of the equity share capital of the Target Company pursuant to the Scheme.

2. On December 17, 2018, Acquirer 2 and PAC 2 entered into the SPA in terms of which PAC 2 agreed to transfer its global power grids business, as a going concern, to a minority owned joint venture, in which Acquirer 2, would be the majority shareholder. In India, the power grids business of PAC 2 is undertaken *inter alia* by the Target Company. Pursuant to the SPA, the global power grids business of PAC 2 (including the Equity Shares of the Target Company) is proposed to be transferred to PAC 1 which will be, at the outset, owned at 80.1% by Acquirer 2 and 19.9% by PAC 2.

3. 100% of the equity share capital of PAC 1 is directly held by PAC 2. It is proposed that subject to the satisfaction of various conditions precedent including receipt of customary regulatory approvals such as antitrust clearances and other governmental approvals and the successful fulfillment of the conditions set out in the SPA, 80.1% of the equity share capital of PAC 1 will be transferred by PAC 2 to Acquirer 2 and consequently Acquirer 2 will acquire indirect control over the power grids business of PAC 2 (*including the Target Company*) ("**Closing**"). Pursuant to the SPA:

3.1 the part of PAC 2's global power grids business which is not transferred to PAC 1 prior to or at Closing, due to contingencies involved related to the completion of the carve out process, will be transferred subsequently as part of a delayed closing; and

3.2 the Equity Shares of the Target Company are anticipated to be transferred to PAC 1 as part of a delayed closing (i.e. after the completion of certain internal steps in relation to movement of ABB Asea Brown Boveri Ltd's shareholding in the Target Company to PAC 2) (the "**Underlying Transaction**").

4. As on the date of this DPS, Closing of the Underlying Transaction under the SPA is subject to the fulfillment and/ or waiver of certain conditions including, material completion of the transfer of PAC 2's power grid's business to PAC 1 and receipt of certain antitrust clearances and other governmental approvals (the "**Closing Conditions**"). If such Closing Conditions are not met, for reasons outside the reasonable control of the Acquirers and/or the PACs, and the SPA is rescinded, the Acquirers and the PACs may withdraw the Offer under Regulation 23 of the SEBI (SAST) Regulations. Satisfaction of the Closing Conditions is subject to a long stop date of June 30, 2021.

5. Specifically, the Closing Conditions set out in the SPA require satisfaction (or waiver) of the following:

5.1 **Reorganisation:** completion (in all material respects) of the transfer to PAC 1 of such portion of PAC 2's power grids business that generates and includes:

5.1.1 at least 80% of the total revenue attributable to PAC 2's power grids business (or such greater percentage as PAC 2 may from time to time in its absolute discretion decide and notify to Acquirer 2) as determined using the revenue attributable to such business for the financial year ended December 31, 2017;

5.1.2 PAC 2's power grid's business in the United States of America; and

5.1.3 at least 80% of the total revenue attributable to PAC 2's power grids business (or such greater percentage as PAC 2 may from time to time in its absolute discretion decide and notify to Acquirer 2) as determined using the revenue attributable to such business for the financial year ended December 31, 2017 in the People's Republic of China.

5.2 **Regulatory approvals:** Acquirer 2 is required to obtain the approvals set out below:

5.2.1 **anti-trust approvals:** receipt of antitrust clearances from the relevant governmental authorities in Brazil, Canada, China, the European Union, India, Israel, Japan, Mexico, Russia, Saudi Arabia, South Africa, Taiwan, Turkey, South Korea, Switzerland, Ukraine and the United States; and

5.2.2 **foreign investment review ("FIR") clearances:** receipt of FIR clearance in the United States (CFIUS).

6. As at the date of this DPS:

(i) all anti-trust clearances identified in paragraph 5.2.1 have been received. In India, the anti-trust clearance from the Competition Commission of India was received on April 07, 2020; and

(ii) the FIR clearance identified in paragraph 5.2.2 has been received.

7. As a result of the Underlying Transaction, Acquirer 2 will acquire indirect control over the Target Company on and from Closing and subsequently, indirectly acquire approximately 75% of the Equity Shares of the Target Company, thus resulting in an indirect change of control of the Target Company and indirect acquisition of approximately 75% of the Voting Share Capital.

8. In terms of the SPA, PAC 2 has agreed that a member of the ABB group would be responsible for purchasing the Offer Shares. Therefore, Acquirer 1 has been designated as the ABB group entity which will purchase the Offer Shares. This Offer is being made by the Acquirers along with the PACs under Regulations 3(1), 4 and 5(1) of the SEBI (SAST) Regulations, to acquire the Offer Shares, representing 25% of the total Voting Share Capital.

9. The acquisition will not be regarded as a deemed direct acquisition of control over the Target Company as it does not fall within the parameters prescribed under Regulation 5(2) of the SEBI (SAST) Regulations.

10. In terms of Regulation 13(4) of the SEBI (SAST) Regulations, in the case of an indirect acquisition which is not a deemed direct acquisition, a detailed public statement is required to be issued by the Acquirers and the PACs, no later than 5 Working Days following the completion of the underlying transaction of shares or voting rights in, or control over the Target Company or entity holding shares or voting rights in, or control over the Target Company. This DPS is being made within the aforesaid timelines.

11. The Offer Price is INR 865.92 per Offer Share, comprising an offer price of INR 851 per Offer Share, plus interest of INR 14.92 per Offer Share, computed at the rate of 10% per annum, for the period between March 30, 2020 (the date of making the Public Announcement) and June 02, 2020, being the date of publication of this DPS, in terms of Regulation 8(12) of SEBI (SAST) Regulations, to be paid in cash.

12. With the acquisition of PAC 2's global power grids business, Acquirer 2 will offer innovative energy solutions globally by combining PAC 2's world-class grids offering including advanced digital grid solutions with Acquirer 2's digital technology. In addition, Acquirer 2 aims to build an energy platform to realize more energy efficient use of electricity throughout society that connects various fields such as mobility (railways and electric vehicles), life (smart city and buildings) and industry (manufacturing facilities and plants). Acquirer 2 aims at expanding provision of this platform to PAC 2's broad range of customers to promote more efficient use of technology throughout society and empower and grow the social innovation business.
